

## Javier Rodríguez-Carrio, MSc, PhD

Affiliation:

Area of Immunology, University of Oviedo, Oviedo, Spain.

Instituto de Investigación Sanitaria del Principado de Asturias (ISPA), Oviedo, Spain.

Javier is an assistant professor of immunology at the University of Oviedo and researcher at the ISPA (Spain). After completing a research stay at the Academic Medical Centre (Amsterdam, The Netherlands) on the role of lymph node activation in early rheumatoid arthritis, he obtained his PhD from the University of Oviedo in 2015. During his postdoctoral years, he became interested in the interplay between microbiota and lipid metabolism and endothelial damage in chronic kidney disease. His current research interests are the endothelial damage and vascular repair during the very early stage of rheumatic diseases, with special focus on translational biomarkers for cardiovascular risk assessment, as well as high-throughput lipoprotein approaches and lipidomics in chronic conditions.

Javier has been a board member of the EMEUNET working group, and he serves in the EULAR Journal Club team as well as Social Media Editor in Annals of the Rheumatic Diseases and RMD Open.
